THIS SEASON'S FORECAST

A sun-drenched JOURNEY

There's something special about the arrival of spring and summer—lightness in the air, a renewed energy, and of course, the perfect moment to refresh the wardrobe. This collection was designed with that feeling in mind.

At Renuar, we've reimagined timeless staples with elevated fabrics and an unwavering focus on comfort—because feeling good is just as important as looking good. Whether you lean towards easygoing essentials or love a touch of polish, we've created pieces to help you feel your very best, every day.

One of my favorite parts of building this line was curating the color palettes. You'll find tropical tones, fresh neutrals, and this season's standout—Mocha, our color of the year. We've also brought back one of our most-loved motifs: stripes. You'll see them across blouses, polos, and tailored pants—easy to wear and always timeless.

As always, thank you for your continued trust in Renuar. We hope this new collection brings inspiration to your store and helps you offer your customers something they'll feel amazing in.

Here's to a fabulous season of style, ease, and confidence.

Wishing you a beautiful summer ahead,

Warm regards,

Paula Creative Director, Renuar

The Way WE FIT

UNDERSTANDING RENUAR'S LEG OPENING

At Renuar, we know that when it comes to pants, every detail matters—especially the leg opening. It's a key design element that defines the silhouette, influences how the pant falls, and ultimately shapes how it's worn and styled.

This season, we're introducing a clear, consistent naming system for our leg openings to help simplify the fit conversation and enhance your ability

to guide customers. From slim and tapered to wide and fluid, each leg opening now has a dedicated name, allowing for quicker identification, easier sell-through, and a more cohesive customer experience.

With this streamlined approach, you'll be equipped to speak confidently about fit, differentiate between silhouettes, and make more informed recommendations on the sales floor.

Because when the fit—and the finish—align with how your customer moves through their day, everything else simply falls into place.
